PRIME Sem3 PHP Framework (Laravel) Module End Exam

Book name: Laravel Framework for Web Applications with PHP,

Q.1 Which of the following is the correct command to install Homestead?	
A. vagrant box add laravel/homestead	B. vagrant box add homestead/laravel
C. vagrant box install laravel/homestead	D. vagrant box install homestead/laravel
Correct Answer: A	
Reference: Page # 19, Heading 1.1.7	

Q.2 Which of the following terms BEST describes Laravel?	
A. Application	B. Framework
C. Software	D. Tool
Correct Answer: B	
Reference: Page # 22	

Q.3 The acronym for Hypertext Processor is _____	
A. HP	B. PHP
C. HTTP	D. HTML
Correct Answer: B	
Reference: Page # 30, Heading 2.2	

Q.4 A _____ is a basic templating structure that is used to develop, test and deploy applications rapidly and efficiently	
A. Template Engine	B. Web Engine
C. Framework	D. Script
Correct Answer: C	
Reference: Page # 30, Heading 2.2	

Q.5 _____ is a development model that includes rapid prototyping	
A. Rapid Action Program	B. Laravel Framework
C. Templating Rapid	D. Application Development
Correct Answer: A	
Reference: Page # 31, Heading 2.3	

Q.6 Laravel uses the ____ design pattern to facilitate development of Web applications in a quick and easy manner	
A. CakePHP	B. CodeIgniter
C. Model-View-Controller	D. Web Application
Correct Answer: C	
Reference: Page # 41, Heading 3.1	

Q.7 Which of the following directories includes the Views that will be used to display the final Web
--

page as well as the un-compiled assets related to JavaScript and CSS?	
A. Bootstrap	B. Resources
C. Storage	D. Database
Correct Answer: B	
Reference: Page # 35, Heading 2.4	

Q.8 Which of the following enables the user to add elements to the project that follow the Laravel convention?	
A. Artisan Tool	B. PHP Code
C. Laravel Components	D. Composer
Correct Answer: A	
Reference: Page # 46, Heading 3.4	

Q.9 Although the Master Blade template uses the directive it is replaced by the content in the directive of child templates	
A. Expression and custom	B. Namespace and functions
C. Yield and sections	D. Array and list
Correct Answer: C	
Reference: Page # 67, Heading 4.5.1	

Q.10 The main reason to use the query builder over writing SQL code manually is because _____	
A. It is rich in features	B. It writes different SQL codes depending on the database being used
C. It has few SQLite directives	D. It uses configuration mode for migration
Correct Answer: B	
Reference: Page # 83, Heading 5.4.2	

Q.11 Functions that are defined in the model and that replace a long chain with a simple one are called _____?	
A. Model Events	B. Event Listeners
C. Eloquent ORM	D. Query Scopes
Correct Answer: D	
Reference: Page # 92, Heading 5.5	

Q.12 The ____ method uses the URI, two arguments and the closure function that is executed in response to the URI	
A. put	B. push
C. get	D. set
Correct Answer: C	
Reference: Page # 47, Heading 3.5	

Q.13 _____ are required to use Composer and Homestead on Windows.	
A. Virtual Environment	B. PHP Binaries

C. Windows tools	D. SSH Keys
Correct Answer: B	
Reference: Page # 10, Heading 1.1.2	

Q.14 Which of the following commands will help to verify that Composer is installed on the computer?	
A. Gitbash	B. ssh
C. cmd	D. install
Correct Answer: C	
Reference: Page #12 , Heading 1.1.3	

Q.15 The GNU License information appears when you install _____ ?	
A. Composer	B. Vagrant
C. Homestead	D. GitBash
Correct Answer: D	
Reference: Page # 16, Heading 1.1.6	

Q.16 The _____ file in windows is the first file that is referenced when the operating system tries to resolve a domain name.	
A. hosts	B. local
C. public	D. yaml
Correct Answer: A	
Reference: Page # 43, Heading 3.3.2	

Q.17 _____ is an essential feature in laravel that enables all application requests to direct towards its respective controller.	
A. SSH	B. Unit Testing
C. Routing	D. Migration System
Correct Answer: C	
Reference: Page # 47	

Q.18 Laravel recommends the use of _____ when writing codes.	
A. models	B. views
C. scripts	D. keys
Correct Answer: B	
Reference: Page # 48	

Q.19 The _____ feature in the MVC design pattern eliminates the need to create new files and multiple pages for a single application.	
A. Synchronizing	B. Formatting
C. collating	D. editing
Correct Answer: D	
Reference: Page # 48, Heading 3.6	

Q.20 Which of the following terms BEST describes the statement Codes can be independent or
--

interchanged based on the requirement?	
A. static	B. modularity
C. irrevocable	D. configuring
Correct Answer: B	
Reference: Page # 50, Heading 3.7	

Q.21 The _____ in Laravel helps in creating tables.	
A. Schema builder class	B. Rowa
C. Foreign keys	D. columns
Correct Answer: A	
Reference: Page # 62, Heading 4.4.2	

Q.22 The _____ directly includes the code that collates all files spread throughout the directories and run the application.	
A. bootstrap	B. app
C. config	D. routes
Correct Answer: A	
Reference: Page # 35	

Q.23 The _____ tool is an automation tool that helps to create models, views and controllers pre-filled with a template.	
A. command	B. artisan
C. PHP dependency	D. framework
Correct Answer: B	
Reference: Page # 32, Heading 2.3.3	

Q.24 Migration can be implemented by editing the _____ file and running the _____ command.	
A. hosts and PowerShell	B. .env and migrations
C. .hrm and ssh	D. php and transfer
Correct Answer: B	
Reference: Page # 63, Heading 4.4.3	

Q.25 The code 'vagrant@homestead:~\$ composer -V' verifies:	
A. homestead version	B. SQLite version
C. Laravel version	D. Composer version
Correct Answer: D	
Reference: Page # 23	

Q.26 A _____ is a case where the attributes of a model are blindly updated	
A. Attribute	B. Mass assignment
C. Static controller	D. Mighty model
Correct Answer: B	
Reference: Page # 81	

Q.27 Match the following components with their respective description									
SI NO	Left Column	SI NO	Right Column	Correct Answer for Column A					
A1	PHP	B1	Used to generate SSH keys	B1	B2	B3	B4	B5	B6
A2	Composer	B2	An automation tool for building and managing virtual machine environments	B1	B2	B3	B4	B5	B6
A3	VirtualBox	B3	A virtual environment that provides resources to efficiently code. Web applications in Laravel	B1	B2	B3	B4	B5	B6
A4	Vagrant	B4	A dependency management tool for PHP	B1	B2	B3	B4	B5	B6
A5	GitBash	B5	Should be installed on the Windows host operating system to use Composer	B1	B2	B3	B4	B5	B6
A6	Homestead	B6	A free and opensource hypervisor that allows running guest VMs.	B1	B2	B3	B4	B5	B6
Reference: Page # 9, Heading 1.1.1									

Q.28 When creating a record, it is necessary to include the _____ keyword array to prevent any malicious attempt	
A. \$fillable	B. \$rows
C. @columns	D. \$fields
Correct Answer: A	
Reference: Page # 81	

Q.29 Which of the following methods is used to retrieve records?	
A. Get()	B. Find()
C. Retrieve()	D. All()
Correct Answer: D	
Reference: Page # 82, Heading 5.4.2	

Q.30 Using which of the following methods can you select a column name?

A. Big increments	B. Get
C. where	D. find
Correct Answer: C	
Reference: Page # 83	

Q.31 Which of the following methods is used to retrieve a specific record?	
A. Retrieve()	B. Find()
C. All()	D. Get()
Correct Answer: B	
Reference: Page # 83	

Q.32 Which of the following best describes Chaining?	
A. A collection object has multiple methods that returns another collection object	B. Defining the ID column during database migration
C. Using conventions over configurations	D. Accessing values after retrieving records
Correct Answer: A	
Reference: Page # 83	

Q.33 _____ help in organizing codes by grouping requests that handle the codes in a single route and class	
A. Models	B. Controllers
C. Views	D. Applications
Correct Answer: B	
Reference: Page # 102, Heading 6.2	

Q.34 A _____ is preconfigured using a single line of artisan command	
A. Single action controller	B. Moderate controller
C. Resource Controller	D. Class view
Correct Answer: C	
Reference: Page # 104, Heading 6.3	

Q.35 The update operation is similar to the _____ operation	
A. Edit	B. Yield
C. Update	D. Create
Correct Answer: D	
Reference: Page # 118, Heading 6.3.4	

Q.36 _____ helps in implementing CRUD operations	
A. Routes	B. Eloquent ORM
C. Operators	D. DB query builder class
Correct Answer: D	
Reference: Page # 62, Heading 4.4.2	

Q.37 Which of the following statements is true? (1) The code folder inside the homestead directory and the homestead environment are the same. (2) By default, Laravel has route class, Which has only one method to handle each type of HTTP request.	
A. Both 1 and 2	B. Only 2
C. None of these	D. Only 1
Correct Answer: D	
Reference: Page # 47, Heading 3.5	

Q.38 _____ refers to the concept of sending records in blocks	
A. Validation	B. Pagination
C. Routing	D. Authentication
Correct Answer: B	
Reference: Page # 126, Heading 6.6	

Q.39 The basic content of a web application are written in the _____	
A. Template engine	B. Local file
C. Master template	D. Publicfolder
Correct Answer: C	
Reference: Page # 66, Heading 4.5
